What is TSLOTS?

About TSLOTS

TSLOTS by Bonnell Aluminum is the leading T-slotted aluminum extrusions manufactured, distributed, and sold by an aluminum extruder. That means you get the most consistent quality and one of the most extensive offerings in the industry. You never have to worry about color or finish because all **TSLOTS** meet the same extremely high standards.

The concept behind the T-Slotted aluminum extrusion is to make assembly of structures faster and easier than using welded steel. That's because the main component of the system is the **TSLOTS** design: insert a T-Nut and fastener into a T-Slot and tighten. It's that simple. No welding or grinding required. All you need to tighten your **TSLOTS** design is a few simple hand tools.

When you are done, you have a durable, strong, lightweight structure that's functional and attractive. The high-strength extruded aluminum profiles have a clear and black anodize surface that is scratch and corrosion resistant. Your structure never needs painting and is maintenance free.

ADVANTAGES OF TSLOTS ALUMINUM

- Simple T-Slotted design
- Linear adjustability on the X, Y, and Z axis
- Lightweight and easy to use
- Standard fractional & metric sized centerlines
- Stocked in 12' and 20' lengths
- No welding or painting required
- High strength
- Corrosion resistant
- 90% recyclable
- Anodized finish
- Flexibility to change, relocate, or add to at any time

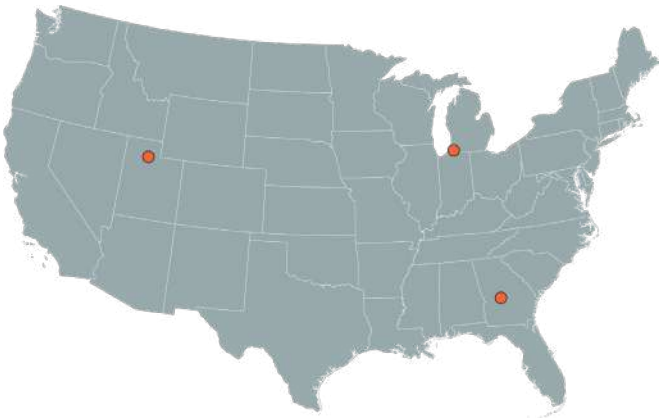

What is TSLOTS?

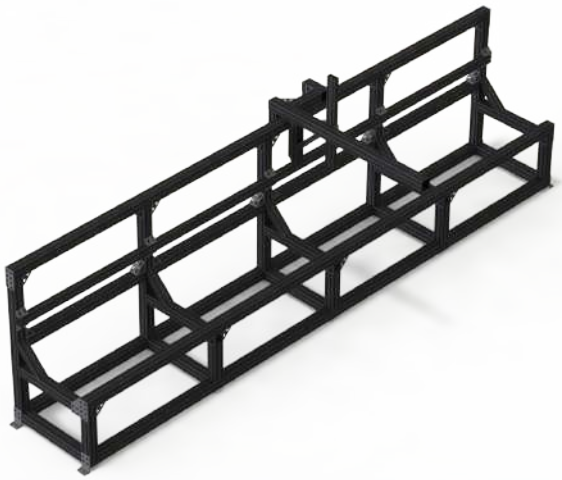

Why TSLOTS is Unique

1

WE ARE THE MANUFACTURER!

At **TSLOTS**, we take pride in being the only t-slotted extruder in the nation that sells directly to the market. With 3 strategically located manufacturing facilities across the country, we ensure not only optimal inventory levels but also reduced lead times. This means you get the materials you need, exactly when you need them, without delays.

2

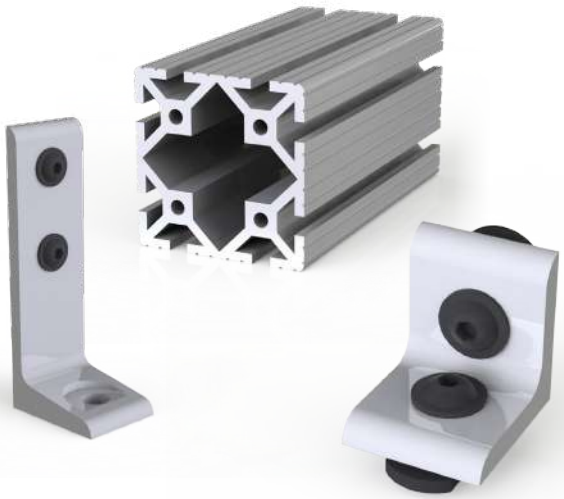

SUPPLIER COMPATIBILITY

We carry over 140 profiles in clear and black anodize and a small variety in safety yellow. All our extrusion profiles were designed and created to work with other major profile suppliers in the market. And, with a complete line of brackets, gussets, & plates as well as the connecting hardware, we are a one-stop shop for all your build needs.

3

COMPLETE CUSTOMIZATION

With **TSLOTS**, there is a limitless options for finding your ideal solution, including a profile we don't offer. As the manufacturer, you can work with our design team and create a shape that will work seamlessly with our product lines and hardware. With full control of the process, quality and precision is what we aim for.

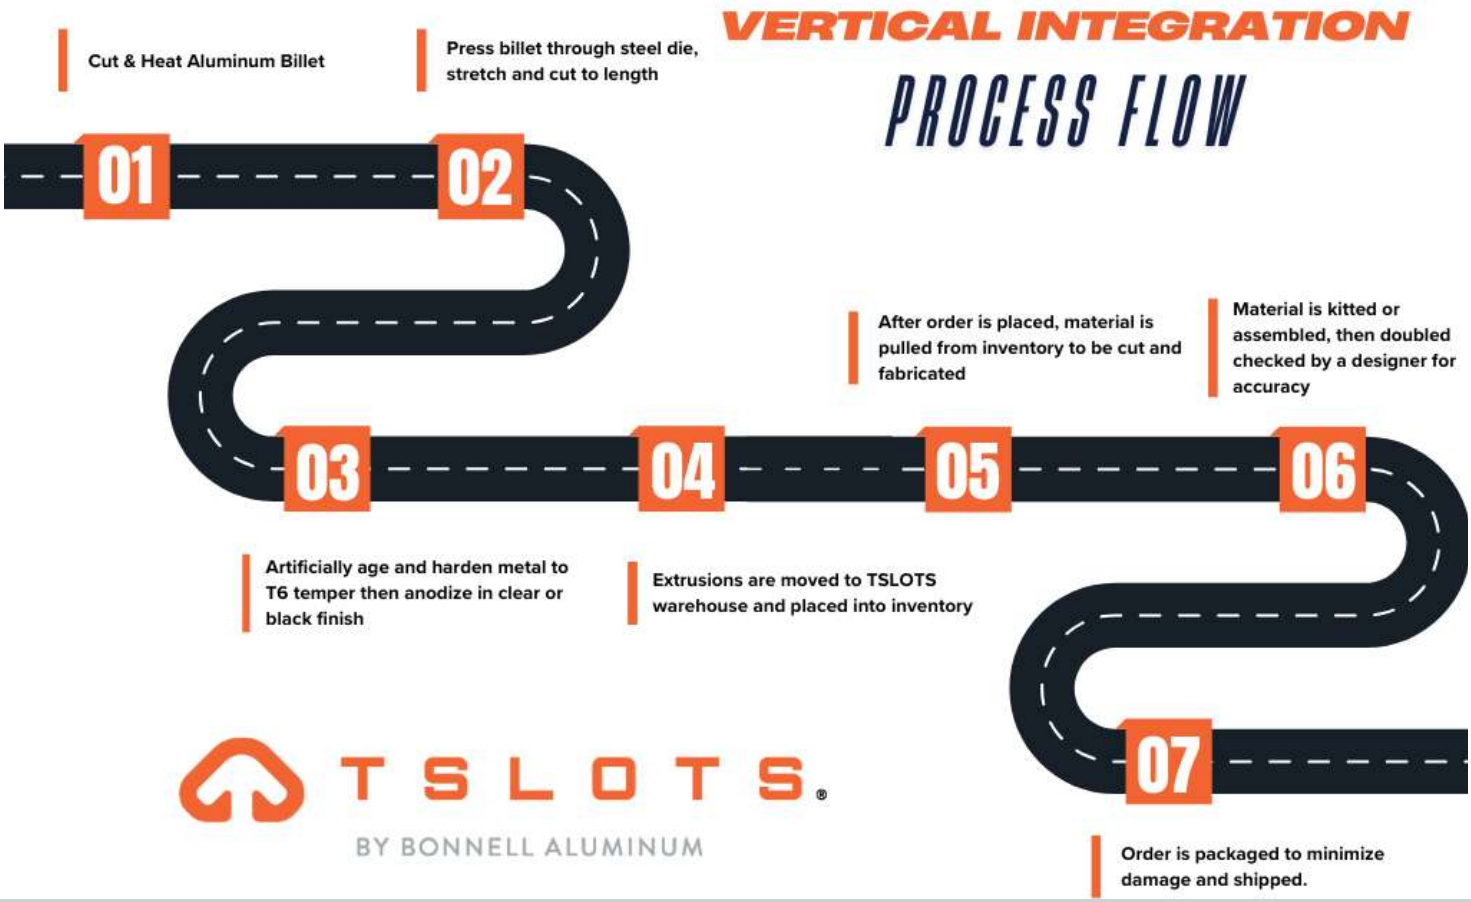

What is TSLOTS?

Vertical Integration

Vertical Integration for **TSLOTS** refers to the company's strategic approach of owning and controlling the entire manufacturing process, from raw material to finished product. With **TSLOTS**, you're not just buying a product, you're investing in a process — a vertically integrated, finely-tuned process that guarantees quality, consistency, and flexibility.

THE BENEFITS OF VERTICAL INTEGRATION

FLEXIBILITY WITH PRODUCT LINE	**LEVERAGING PRESS CAPACITY**	**SHORTER LEAD TIMES**	**QUALITY CONTROL**

What is TSLOTS?

Bulk Program

Vertical integration is an advantage for any manufacturer because it allows for greater control and efficiency from production. At TSLOTS, vertical integration means we can bypass the inventory phase and pack your material right off the press. This reduces warehousing and inventory costs and saves you valuable time. By handling everything in-house, we ensure a streamlined and efficient process from start to finish, passing along rapid turnarounds and cost savings to our customers.

1000 Series

Our 1000 series bundled extrusions come in large quantity batches and offers the best pricing available. This series of profiles is made to order from our presses, is carefully packaged, and directly shipped to your facility. While this option does come with an extended lead time, it ensures that you receive precisely what you need at the most favorable price possible.

2000 Series

Our smaller bundle 2000 series sizes are pulled directly from our stocked inventory. These still provide a great price, but offer a reduced lead time. This bulk series typically ships in 1-3 business days from any one of our 3 locations across the U.S.

BEST PRICING AVAILABLE

STRONG LEAD TIMES

PRODUCT COMPATIBILITY

Custom Data Centers

Structural Framing Systems

The data center industry faces unprecedented challenges: skyrocketing demand, supply constraints, and a rapidly evolving workforce. But the most critical issue? Power—its sourcing, sustainability, and scalability for an AI-driven future.

Being able to pivot and respond quickly to the increasing demands are more important than ever. TSLOTS modular extrusions are built just for that reason. Whether it's barriers, workstations, containment enclosures or shelving, our profiles can change with those demands.

Transform your workspace effortlessly with T-slotted structural framing! Its adaptable design makes reconfiguration a breeze, enabling quick adjustments to meet evolving demands.

WHY CHOOSE OUR FRAMING OPTIONS?

- **Effortless Customization:** Easily repurpose and reconfigure to keep your operations ahead of the curve.
- **Cost -Efficient:** Reduce downtime, cut costs, and speed up your time to market.
- **Optimal Designs:** Craft partitions or aisle containment systems tailored to your unique requirements.

Design Assistance & TBUILD Design Software

TBUILD™ BY TSLOTS

TBUILD™ by TSLOTS is a free, web-based design tool tailored specifically for projects using TSLOTS extrusions. With its intuitive and user-friendly interface, you can easily create and edit designs, generate a detailed bill of materials, and access real-time pricing—all in one seamless experience. Whether you're starting a new project or refining an existing one, TBUILD™ simplifies the process and saves you time.

DESIGN ASSISTANCE

From Sketch to Completion

From your napkins sketch to a completion, our skilled design team can help bring your creation to life. They will work with you to address requirements and better help you understand how TSLOTS works to help you find the best solution.

No Size Limitations

No design idea is too big or too small! We are excited to work with your ideas however they come.

For additional support, email us at
tbuild.support @bonnellaluminum.com

Start designing today at TBUILD.IO

EASY OF USE

Drag-and-drop tool with no complex commands or extensive training needed

WEB-BASED ACCESS

No need to download software files that push your systems capacity. Access TBUILD™ from anywhere and complete projects anytime.

DESIGN FREEDOM

Our complete product library is available and limited to only your imagination. Experiment with different configurations to find your perfect design

CUSTOMER SUPPORT

Our support team is available to help you navigate TBUILD™ with your questions and challenges.

Customer Support

Here to Help - Every Step of the Way

Here at **TSLOTS**, we believe that excellent support makes all the difference. Whether you have a question, need guidance, or require assistance with your project, our friendly and knowledgeable customer support team is ready to help.

We pride ourselves on providing quick, efficient assistance for all your inquiries. Your satisfaction is our priority, and we're here to ensure your journey with us is smooth and stress-free. Don't hesitate to get in touch—we're just one click away!

Email - *tslotsinfo@bonnellaluminum.com*, and experience support that's as seamless as the solutions we deliver.

Distributor Network

Find a Distributor

TSLOTS by Bonnell Aluminum is the only extrusion manufacturer that sells directly into the market through distribution. Our nationwide chain of suppliers can provide you with extrusions and components, and can assist you further with automation solution ideas. Our manufacturing facilities located in Clearfield UT, Niles MI, and Newnan, GA and allow us to be closer to our customers. With over 140 inventoried extrusion profiles, we've cut down on shipping costs, while reducing lead times, in order to keep our distributors well stocked.

Your local distributor is here to guide you every step of the way, making the process of designing your perfect solution effortless. From initial concept to final design, we ensure a smooth and stress-free experience tailored to your needs.

What's more, many of our distributors carry a wide range of complementary product lines—including pneumatics, hydraulics, servos, and more. This allows for easy and efficient integration, giving you a complete, cohesive solution without the hassle.

What is TSLOTS?

Product Warranty

All Bonnell Aluminum (TSLOTS) products are guaranteed to be free of actual defect in material and workmanship for (1) full year from the date product was shipped from the factory. This warranty is limited to replacing or repairing, at Bonnell's option, F.O.B. Bonnell Aluminum, any part which, upon Bonnell inspection, is found to have a defect in material and/or workmanship. Bonnell Aluminum in no event shall be liable for indirect or consequential damages arising out of the use of Bonnell Aluminum products. Components purchased by Bonnell Aluminum for inclusion by Bonnell Aluminum shall be warranted only to the extent set out above and/or to the guarantee or warranty, if any, made by the supplier of said component.

No warranty is made by Bonnell Aluminum, express or implied, that Bonnell Aluminum products as used in a customer's design and specifications are fit for that customer's specific purpose. Apart from the above express warranty, there are no warranties, express, implied or statutory, including, without limitation, warranties of merchantability and fitness for a particular purpose, which extend beyond the description on the face hereof.

All product is shipped via best carrier, unless customer specified, F.O.B. Clearfield, Utah.

» Returned unused product will be subject to a 20% restocking fee.

California Proposition 65

WARNING: *This product can expose you to chemicals including lead, cadmium, and mercury compounds, which are known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.*

What is TSLOTS?

Deflection Calculations

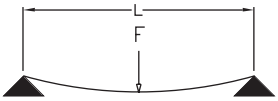

Using the calculations below, find your approximate deflection* for a specific TSLOTS extrusion. See table below for variations.

EQUATION VARIABLE UNITS RESPECTIVELY
° Max. Deflection is in inches
° "F" or Force is in pounds
° "L" or Length is in inches
° "E" or Modulus of elasticity is in pounds per inch squared
° "I" or Moment of Inertia is in inches4
° "W" or Weight is in pounds per inch

* For reference only.

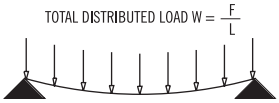

SUPPORTED LOADS

CONCENTRATED LOAD AT CENTER *(simply supported)*

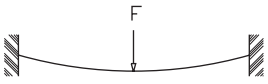

MAX DEFLECTION = $\frac{FL^3}{48\ EI}$

UNIFORMLY DISTRIBUTED LOAD *(simply supported)*

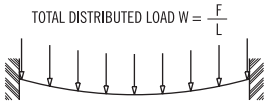

MAX DEFLECTION = $\left(\frac{5}{384}\right)\left(\frac{WL^4}{EI}\right)$

CONCENTRATED LOAD AT CENTER *(between fixed supports)*

MAX DEFLECTION = $\frac{FL^3}{192\ EI}$

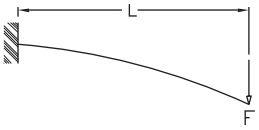

UNIFORMLY DISTRIBUTED LOAD *(between fixed supports)*

MAX DEFLECTION = $\frac{WL^4}{384\ EI}$

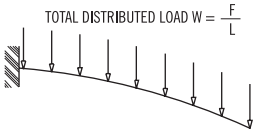

CANTILEVER LOADS

CONCENTRATED LOAD AT CENTER *(simply supported)*

MAX DEFLECTION = $\frac{FL^3}{3\ EI}$

UNIFORMLY DISTRIBUTED LOAD *(simply supported)*

MAX DEFLECTION = $\frac{WL^4}{8\ EI}$

EXTRUSION	(E) MODULUS OF ELASTICITY	(Ix) MOMENT OF INERTIA	(Iy) MOMENT OF INERTIA

What is TSLOTS?

Extrusion Specifications

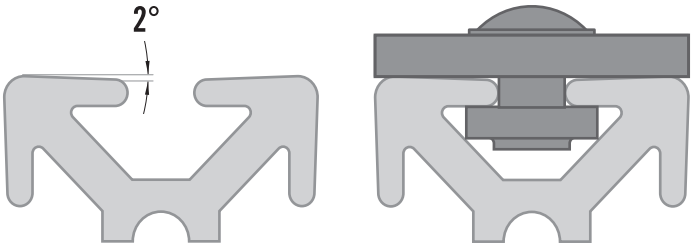

Alloy – 6560 or equivalent*, T6 Temper
Yield Strength (0.2% proof test) – 172 mpa = 25 ksi
Tensile Strength (.02% proof test) – 206 mpa = 30 ksi
Elasticity (E) – approximately 10,000 ksi
Hardness – 12+ Webster Model "B"
Flatness – .004" per inch of width
Straightness - .0125" per foot of length, not to exceed .120 inches over 20 feet of length
Twist – Twist per foot of length does not exceed .25° and total twist over 20 feet of length does not exceed 1.5°

**As an extruder, there are many other alloys that we can extrude. If your application calls for a different alloy, let us know and we can extrude it for you.*

Spring Lock Feature

Our Fractional and Metric TSLOTS structural extrusions have a 2° taper that spring locks fasteners as they are tightened. Fasteners will not loosen, even under heavy vibration.

*Only applicable for the **Fractional** and **Metric** profile series.*

Fastener Torque Specification

The table (below) indicates the amount of torque needed in foot lbs. to activate the 2° drop lock feature of the extrusion. The nut and bolt combination is pre-loaded when tightened to the minimum torque rating. The pre-loaded state makes a vibration proof connection.

FASTENER DESCRIPTION	TESTED EXTRUSION	MIN FT LBS TORQUE	MAX FT LBS TORQUE
5/16-18 FBHSCS or BHSCS & Economy T-Nut	1.5" x 1.5"	10	20
Economy T-Slot Stud, Washer & Hex Nut	1.5" x 1.5"	25	30
15s Anchor Fastener & Standard T-Nut	1.5" x 1.5"	15	20
15s End Fastener	1.5" x 1.5"	10	22
1/4-20 FBHSCS or BHSCS & Economy T-Nut	1" x 1"	5	10
10s End Fastener	1" x 1"	5	17
10s Anchor Fastener & Standard T-Nut	1" x 1"	5	17
10-32 SHCS or BHSCS	1" x 1"	9	13

**These fastener torque specifications are to be used as a guide only. The person using this content is to assume all risk. With the many factors that can affect the torque specifiacations, the only way to determine the correct information is through a series of tests under actual assembly conditions.*

What is TSLOTS?

Aluminum Alloy

An aluminum extrusion alloy is a predetermined mixture of one or more elements together with aluminum to be heated and hydraulically pressed through an extrusion die. Some common elements alloyed with aluminum include copper, magnesium, manganese, chromium, silicon, iron, nickel and zinc.

TSLOTS extrusions use the 6560 or equivalent alloy. In addition to aluminum, the major alloying elements for this alloy include: ***Mg .25-.45% and Si .35-.8%.***

Anodizing

Anodizing is an electrochemical process that thickens and toughens the naturally occurring protective oxide. The resulting finish makes a corrosion resistant extrusion. TSLOTS extrusions have an acid etch anodize finish that is .4-.6 mil. thick. And the anodize is a Type 2 Sulfuric.

REMEMBER – WE CUSTOM EXTRUDE TOO!

TSLOTS can ship you a finished extrusion with your orders. TSLOTS provides the following operations:

- Extrusion
- Anodizing
- Machining
- Painting
- Heat treating
- Fabrication
- Warehousing
- Engineering assistance
- Cut to length
- Punch, slot, countersink

TSLOTS vs. Welded Steel

TSLOTS ADVANTAGES

- Linear adjustment in X, Y and Z axis
- No welding
- No painting (unless you want to)
- No rusting
- No cleanup
- No special tools
- No electricity
- Easy modifications
- Add on attachments
- Remove attachments
- Strong support ability
- Linear slide capability
- Comes packed ready to assemble or arrives assembled if desired
- Compatibility with competitors attachements
- Lower cost per project
- Lightweight and easy to use

WELDED STEEL DISADVANTAGES

- Special equipment, welder
- Welding supplies
- Paint
- Cleaning supplies
- Fabricating equipment
- May rust

WELDED STEEL ADVANTAGES

- Permanent assembly

MAKING CHANGES TO YOUR DESIGN IS EASY!

Required Machining Service

ITEM#	SERIES	TYPE
660022	10	Counterbore
660020	15 40	Counterbore

Double Anchor Fasteners

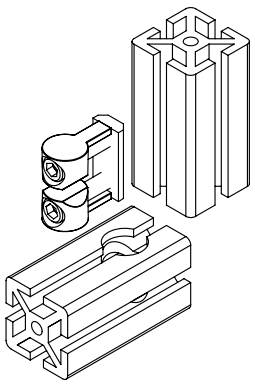

- Reduces assembly time when mating extrusions have opposing anchor fastener counterbores
- Strongest of available fasteners
- Creates 90 degree Tslot connections

1. Select profile for building your bi-fold door. Typically the same as the frame.

2. Determine the opening width for your doors.

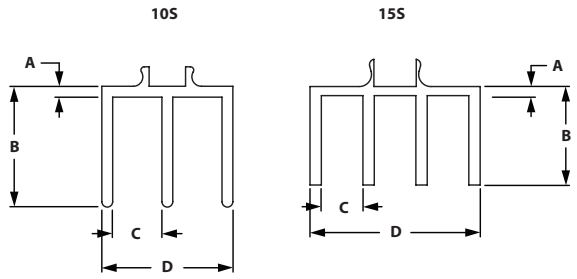

3. Select your hinge type and identify the hinge gap between profiles the for selected hinge.

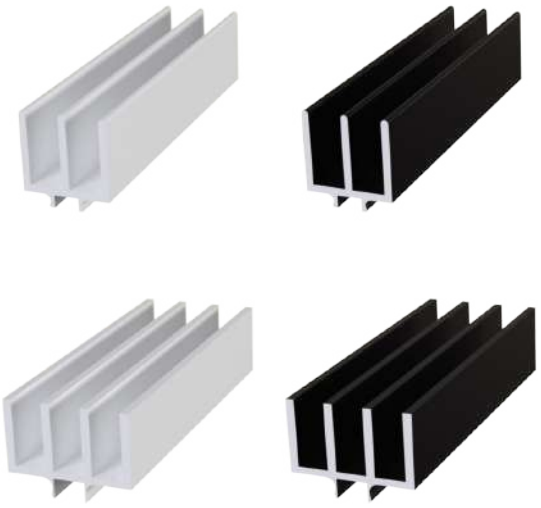

4.Choose the total width for each inside door you wish to use, subtract all hinge and clearance gaps.

Door Slide Track

Upper Door Slide Track

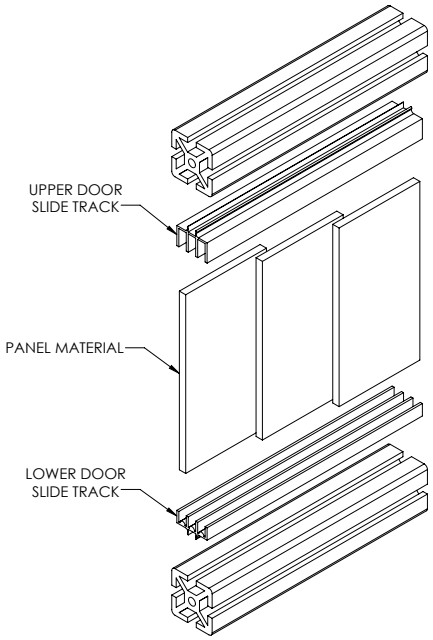

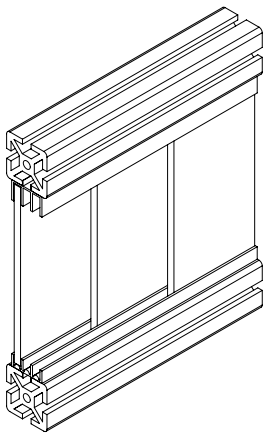

- Snap fits into t-slot
- Deeper slot allows panels inserted after frame is assembled
- For panel height, subtract .500" from overall height

Recommended Fasteners (Extrusion Slot)

ITEM #	SERIES	BOLT	T-NUT	QTY
651766	**45**	M8 x 30mm Hammer Head	Flanged T-nut	2-4

Pivot Joints

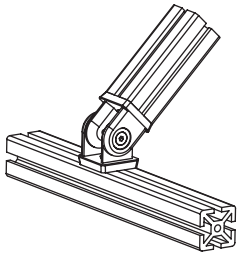

Standard Pivot Joint

- Bushing enables pivot to be both structural and dynamic
- Locating pins can be removed to accommodate extrusion end or slot assembly

Dynamic Hinge Assemblies

Our dynamic hinges are made of a 6000 series aluminum alloy. Our dynamic hinges come with pre-lubricated bronze pivot bearings and hardened stripper bolts. The dynamic hinges are designed to give your design a 0 to 180 degrees of axial motion.

651129	15	5/16-18 x 11/16" SHCS	Economy	3

- 90° range of motion
- Permanently lubricated bronze bushings at high strength pivot points
- Nylon washers between plate and extrusion allow for smooth motion

655317	1" x 1"	Yellow	PVC	12	.210"	4' x 8' + .250"/-0
655818	2" x 2"	Black	PVC	12	.210"	4' x 8' + .250"/-0
655830	2" x 2"	Yellow	PVC	12	.210"	4' x 8' + .250"/-0

Panel Matrix

Area Calculation Matrix

HOW TO USE THE MATRIX

- Round both length and width dimensions up to the next 6" increment
- Find the length and width along the top and side of area calculation matrix
- Find the area in square feet at the intersection of the length and width matrix

CALCULATE PANEL SLOT DEPTH

10 SERIES - ADD .50" TO "A"

15 SERIES - ADD .75" TO "A"

20 SERIES - ADD 6MM (.236") TO "A"

30 SERIES - ADD 14MM (.550") TO "A"

40 & 45 SERIES - ADD 21MM (.826") TO "A"

6060 B PROFILE - ADD 22MM (.866") TO "A"

6060 B 8 SLOT PROFILE - ADD 14MM (.550") TO "A"

3030 FG PROFILE - ADD 51.5MM (2.03") TO "A"

3045 FG PROFILE - ADD 39.2MM (1.544") TO "A"

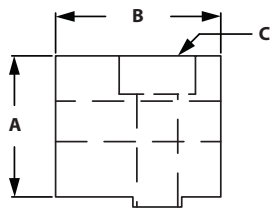

20 SERIES - ADD 10MM (.392") TO "A"

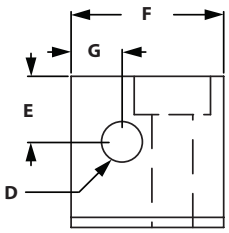

40 SERIES - ADD 19MM (.75") TO "A"

Panel Hardware

Panel Mount Block

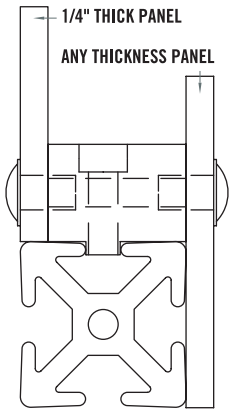

- Allows your to mount panel flush or offset with extrusion
- Simplifies adding or removing panels
- Panel machining required

Product Information

- Place in slot to secure panels or mesh
- Can easily be placed in slot after panel or mesh has been placed
- Can be ordered by the foot or 150' roll

Product Information

ITEM#	SERIES	MATERIAL	LENGTH	A	B
655111	10	Thermoplastic Elastomer	Per Foot	.208"	.362"
655113			150' Roll	.208"	.362"
655110	15 40		Per Foot	.311" 7.90mm	.547" 13.89mm
655112			150' Roll	.311" 7.90mm	.547" 13.89mm

Wire Edge Cover

- Applied to the edge of the wire mesh to prevent cuts
- Creates a clean and safe guarding
- Sold by the foot

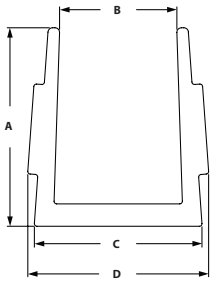

Product Information

ITEM#	COLOR	MATERIAL	LENGTH	A	B	C
655312	Black	PVC/Aluminum	Per Foot	.545" 13.80mm	.357" 9.00mm	.187" 4.75mm

Panel Hardware

Economy Plastic Panel Gasket

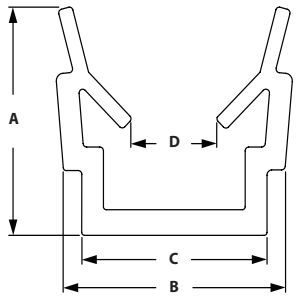

- 10 series gasket will accommodate 3/16" panels

Product Information

ITEM#	SERIES	MATERIAL	COLOR	LENGTH	A	B	C	D
655639	10	Polypropylene	Black	96"	.298"	.179"	.255"	.275"

Deluxe Plastic Panel Gasket

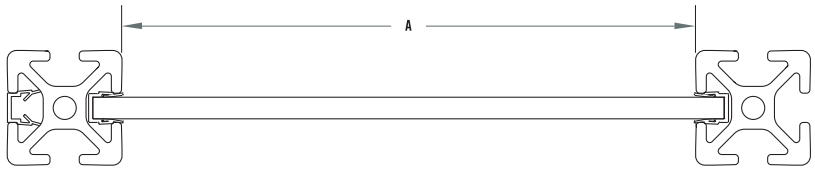

- Recessed in slot to secure panels
- Deluxe gasket can be used as a slot cover
- 655827 only works with .236" (6mm) panels

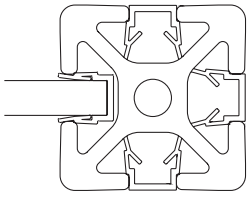

Product Information

Plug In Profile (Slot 8+10)

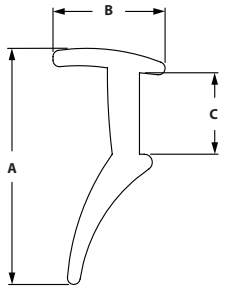

- Secure panels in the slot and fill the slot
- For panels 2-4mm for 8mm slots
- For panels 4-6mm for 10mm slots

Product Information

ITEM#	SERIES	MATERIAL	COLOR	LENGTH	A	B	C
671021	**45**	Plastic TPE	Black	Per Foot	18..00mm	10.50mm	4.70mm

Plug In Profile (Slot 5, 6, 8, 10)

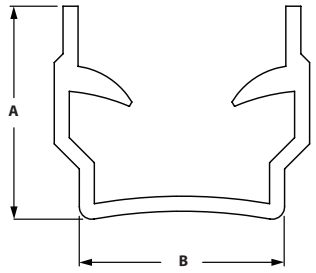

- Secure panels in the slot and fill the slot
- For panels 2-4mm for 8mm slots
- For panels 4-6mm for 10mm slots

Product Information

ITEM#	SERIES	MATERIAL	COLOR	LENGTH	A	B	C
671022	**45**	Plastic TPE	Black	Per Foot	13.40mm	6.50mm	4.70mm

Panel Hardware

Cover and Reduction Profile 8mm Slot

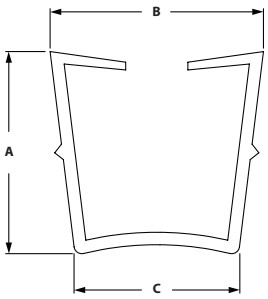

- 20 Series - panel thickness of 1-6mm
- 30 Series -panel thickness of 4-6mm

Product Information

ITEM#	SERIES	MATERIAL	COLOR	LENGTH	A	B
683766	**20**	Plastic TPE	Black	2 Meters	5.75mm	5.20mm
671023	**30**				8.80mm	8.20mm

Cover and Reduction Profile 10mm Slot

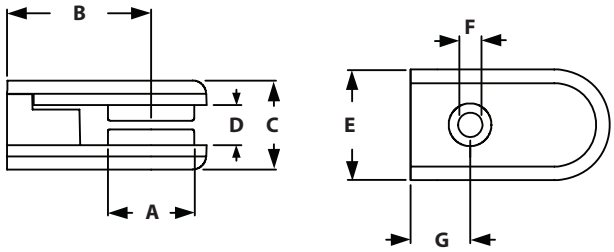

- To cover size 10 profile slots
- Secures panels with a thickness of 2-8mm

Product Information

ITEM#	SERIES	MATERIAL	COLOR	LENGTH	A	B	C
671024	**45**	Plastic TPE	Black	2 Meters	12.80mm	13.70mm	10.20mm

Glass Panel Clamp

- Simple and easy way to secure panels
- Gripped pads increase the strength and protect panel
- For panels .079" - .375" (2mm - 9.5mm)

Product Information

Deluxe Linear Bearings

Deluxe Linear Bearing Information

The shimless linear bearing provides accurate linear movement on TSLOTS extrusions. The bearing can be adjusted for the first time on an assembly or adjusted for wear while assembled to the application, providing that the adjustment screws are available to the adjustment tools. No shims, no disassembly, only accurate sliding.

1. Linear Bearing adjustable bearing pads are delivered in the open position. Slide the bearing on the extrusion to be used. (Fit will be loose, because of the open position.)

2. Using a 1/16 allen wrench for a 10 Series linear bearing, and a 3/32 allen wrench for 15 Series linear bearing, loosen the Flathead socket cap screws on each side of the linear bearing incrementally as follows. (Fig. #1)

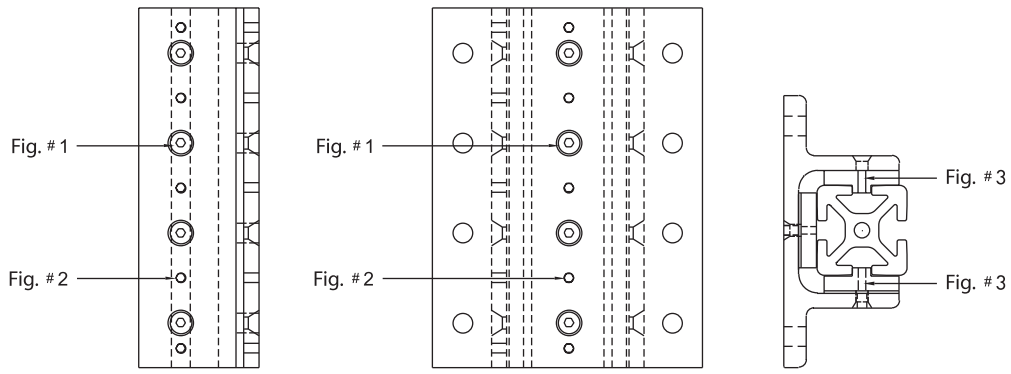

- 10 Series Bearing, 4-40 THREAD
- 15 Series Bearing, 8-32 THREAD

*Each flathead screw should be loosened the same amount, to provide even shimming on the extrusion.

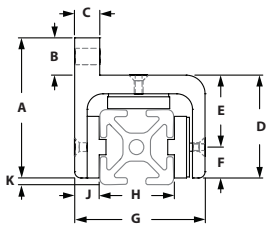

3. Tighten each set screw, using a .050 allen wrench for a 10 Series linear Bearing, and a 5/64 allen wrench for a 15 Series linear bearing, until each flat head screw is properly seated in each countersink. Hint: The amount of turns per set screw will be the same amount as for the flat head socket cap screw. (Fig. #2)

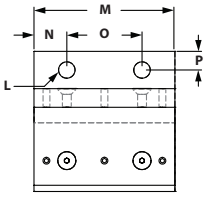

4. For fine tuning: Repeat steps 2 & 3.

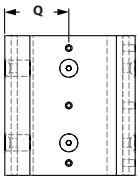

**Replacement bearing pads are available through TSLOTS or your distributor. Due to patent requirements, TSLOTS requires all users of the aforementioned product to only replace bearing pads as per the drawing below. Only the opposing sides have keyed bearing pads. (Fig. #3)*

Linear Bearing Machining

Linear Bearing Machining Services

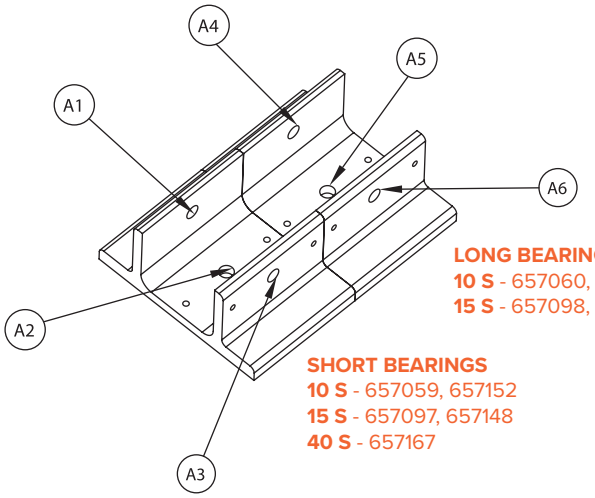

- For deluxe linear bearings, we recommend applying brake holes on the side without the set screw, if possible.
- To order linear bearings machining services, specify the linear bearing, the machining service and the brake hole location.
- When ordering linear bearing machining services, make sure the linear bearing and the machining service are both the same series.

Example - 657095 - 660092 @ C4

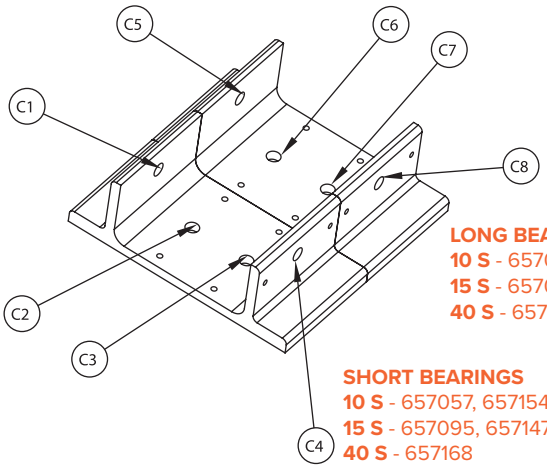

Product Information

ITEM#	SERIES	DESCRIPTION
660093	**10**	Brake Machining Services (.281) Hole
660092	**15 40**	Brake Machining Services (.328) Hole

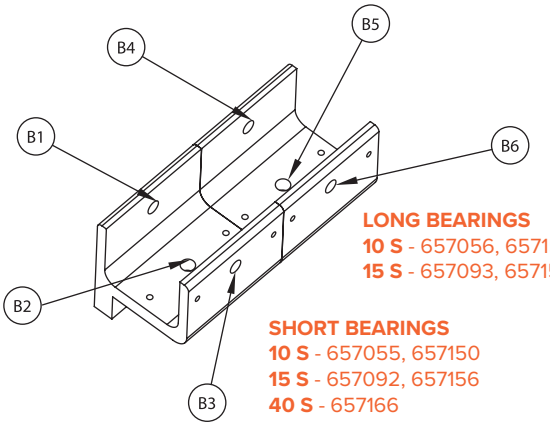

LONG BEARINGS
10 S - 657060, 657153

10 S - 657055, 657150
15 S - 657092, 657156
40 S - 657166

Linear Bearing Load Ratings

LINEAR BEARING LOAD RATINGS

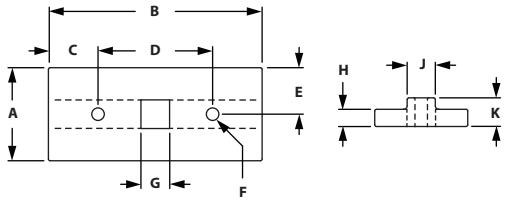

SERIES	LOAD A
10 S	375 lbs.
15 S	500 lbs.
40 S	500 lbs.

FORCE B
Force to move = 45 lbs.
Force to move = 60 lbs.
Force to move = 60 lbs.

**Values are recommended load ratings not to be used for design purposes.*

Linear Bearing Hardware

Economy Bearing Replacement Pads

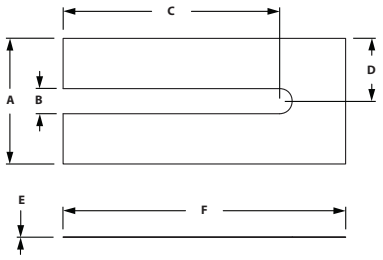

- Low friction to create better linear motion
- Single keyed
- Pre-machined holes for easy mounting

HYDRAULIC LIFTING SYSTEMS SECTION

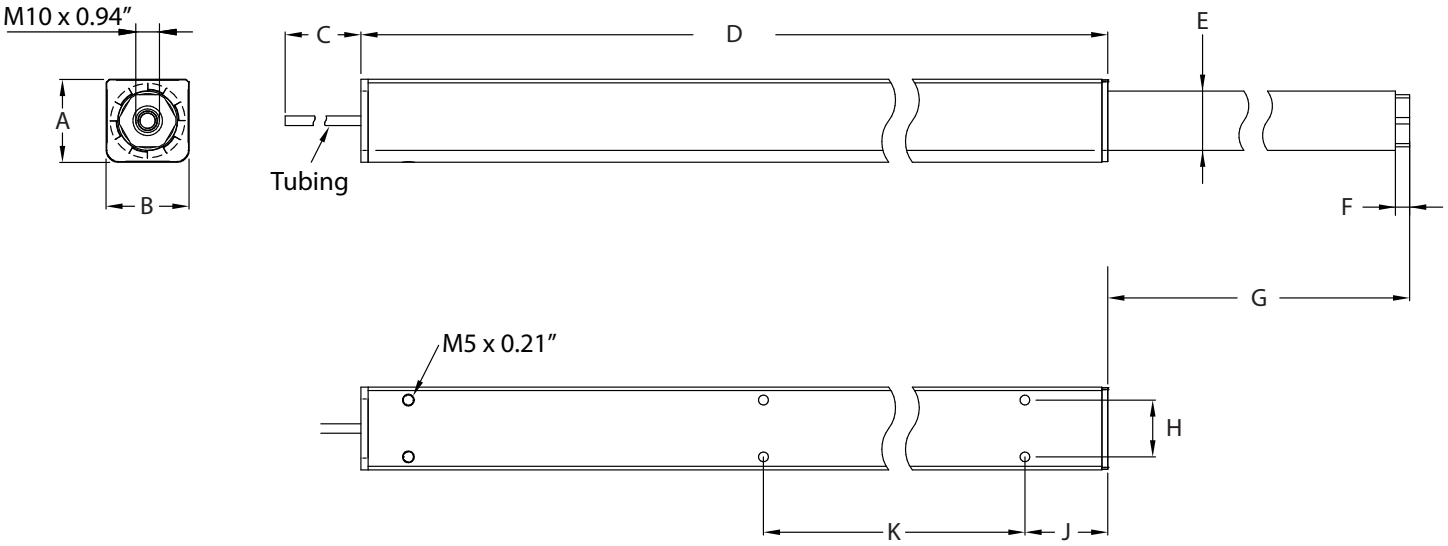

Hand Crank Lift System

Material Specs

- Max Load: 992 lbs. (450 kg)
- Max Stroke: 11.81" (300mm)
- Lifting Speed: 0.2" (5mm) per crank revolution
- Retracted Height: 17.4" (442mm)
- Extended Height: 29.2" (742mm)
- Kit Weight: 29lbs (13 kg)
- Dimensions: 35" x 12" x 9"

- **Kit Includes: Hydraulic Pump (1), Linear Legs (4), Mounting Brackets (8), Leveling Feet (4), & tubing mouting hardware (1).**

MACHINING SERVICES SECTION

Machining Services

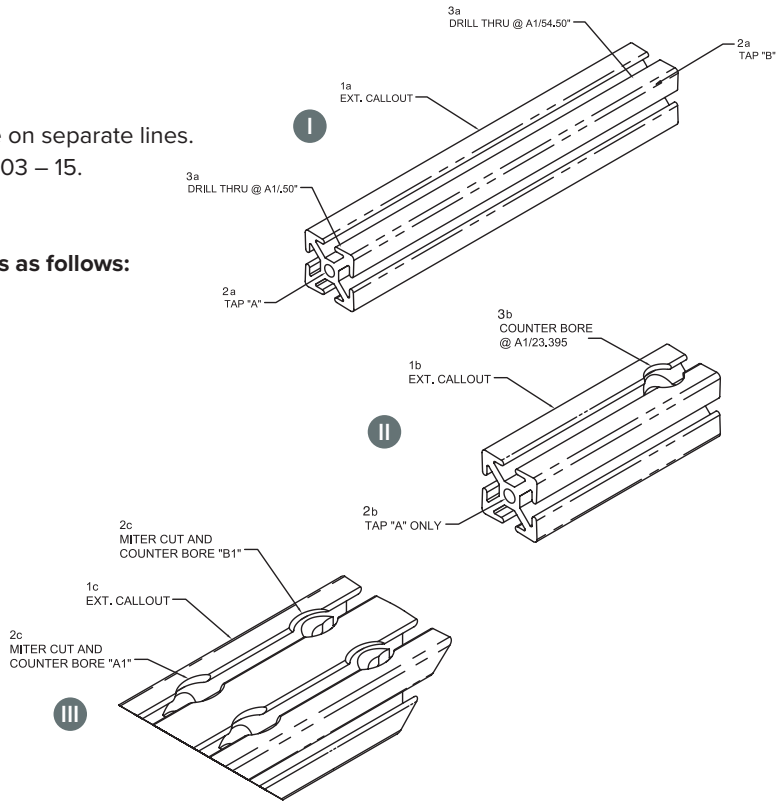

Ordering Example

Your project calls for 15 pieces of 1.5" x 1.5" extrusion and 5 pieces of 1.5" x 3". All 15 pieces of the 1.5" x 1.5" are cut to length and will be machined – 10 pieces @ 55" and 5 pieces @ 24.25" and all 5 pieces of the 1.5" x 3" are miter cut and counterbored – 5 pieces @16.35".

In this example there are (3) separate orders that will take place:

I. 10 pieces of 1.5" x 1.5" @ 55"
II. 5 pieces of 1.5" x 1.5" @ 24.25" and
III. 5 pieces of 1.5" x 3" @ 16.35".

**At the end of your machining order, total each machining service on separate lines. Ex. In Scenario I and II there are 15 Cut To Length charges – 660003 – 15.

The information needed to complete the above order scenario is as follows:

I. The 10 pieces of 1.5" x 1.5" @ 55":
   1a. Extrusion item number or, Description pieces, length
   2a. Tapped
   3a. Drilled for access holes

II. The 5 pieces off 1.5" x 1.5" @ 24.25":
   1b. Extrusion item number or Description, pieces, length
   2b. Tapped
   3b. Counterbored

III. The 5 pieces of 1.5" x 3" @ 16.35":
   1c. Extrusion item number or Description, pieces, length
   2c. Miter cut and counterbored

Your order would look as follows:

ITEM #	QTY	MACHINING SERVICE NUMBER	LENGTH
I. (1a) 650005 (TS1515)	10	(2a) 660034 A-B (3a) 660028 A1/.75"-A1/54.25"	55"
II. (1b) 650005 (TS1515)	5	(2b) 660034 A (3b) 660057 A1/23.395"	24.25"
III. (1c) 650008 (TS1530)	5	(2c) 660056 A1-A2--B1-B2	16.35"

Drill Access Hole Locations

Drill Access Hole (Cont.)

Ordering Example

You want 2 pieces of 1.5 x 1.5" @ 45" to receive a two-hole in-line access hole pattern at both ends, for attachment of a length of 15 x 30. The order would look as follows:

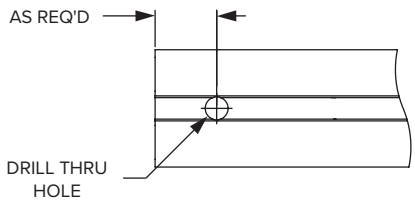

ITEM#	QTY	MACHINING SERVICE #	LENGTH
650005	2	660106 A1 / .75" - A1 / 44.25"	45"
	2	660003	
	4	660106	

Note that the distance specified in both cases (from the reference end of the profile) will provide a flush connection with the mating extrusion.

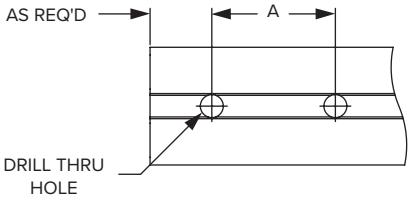

- Machining tolerance is +/- .030"

Anchor Fastener Counterbore / Butt Fastener Couterbore

ITEM#	SERIES	COUNTERBORE	COUNTERBORE SIZE	A	B	C
660022	10	Anchor Fastener	.563" Dia. x .420" Deep	.500"	.436"	.563" x .420"
660023		Butt Fastener		.500"	.436"	.563" x .420"
660020	15 40	Anchor Fastener	.812" Dia. x .650" Deep	.750"	.855"	.812" x .650"
660021		Butt Fastener		.750"	.721"	.812" x .650"

Ordering Example

A project requires that two lengths of profile be machined for an anchor fastener assembly. One of the lengths is the 1.5" x 1.5" @ 41" extrusion profile and requires the counterboring at one end only, in slot A1 and A3 of the profile. The other length is the 1.5" x 3" extrusion profile @ 45" that requires machining for two anchor fasteners at each end, in slot A3-A6 and B3-B6 of the profile only. The counterbore service would be ordered as follows:

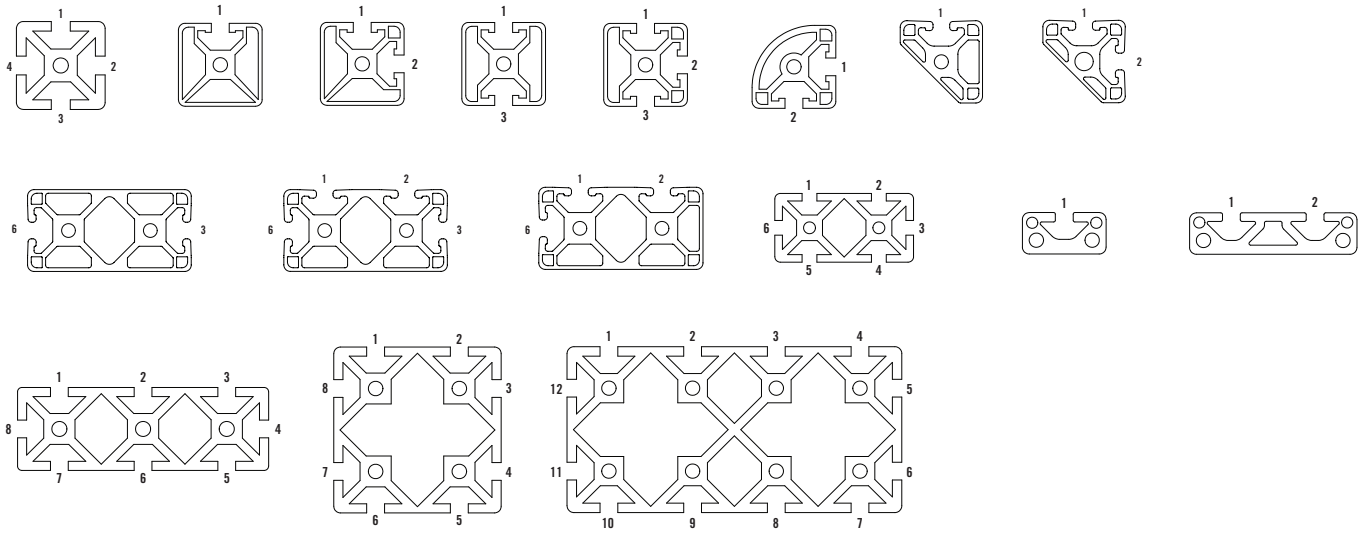

ITEM#	QTY	MACHINING SERVICE #	LENGTH
650008	1	660020 -A3-A6-B3-B6	41"
	1	660006 -CTL	
	6	660020	

◦ Machining tolerance is +/- .030"

Counterbore machining services are priced per counterbore required.

660091	15 40	Furniture Style Door Handle	.813" Dia. x .390" Deep

Ordering Example

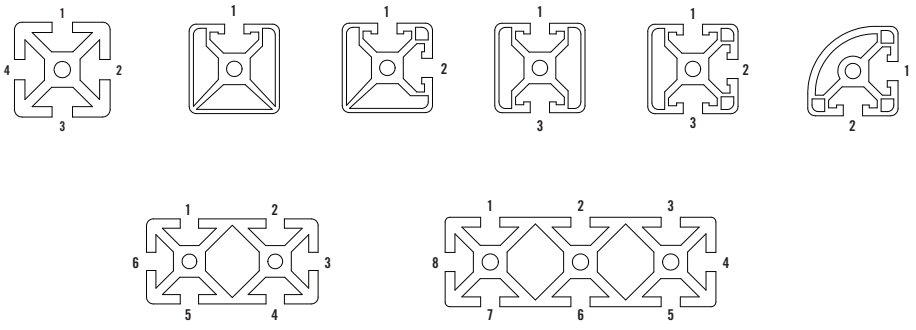

A project requires that a furniture style door handle be used on a 15 x 15 extrusion. The door handle will be 5" from side "A" in slot 1. The machining service would look as follows:

ITEM#	QTY	MACHINING SERVICE #	LENGTH
650005	1	660091 - A1 / 5"	30"
	1	660003 -CTL	

- Machining tolerance is +/- .030"

Ordering Example

Two custom support brackets are required for your project, but you plan on counterboring the part yourself. You will use 15 x 30 extrusions that are 15" long from corner to corner. The machining service would look as follows:

ITEM#	QTY	MACHINING SERVICE #	LENGTH
650008	2	660046 A1 - B1	15"
	1	660006 -CTL	

- Machining tolerance is +/- .030"

Machining Services

Panels and Wire Mesh - Cut to Size

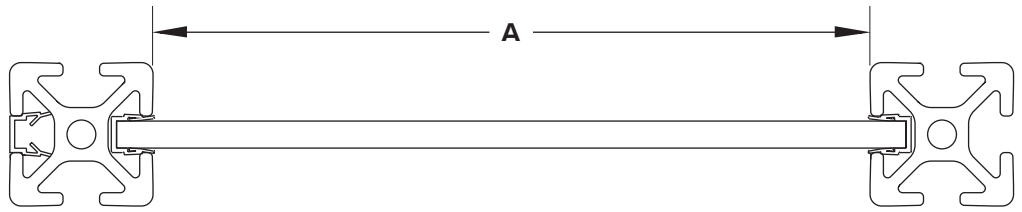

ITEM #	MATERIAL	SERVICE TYPE
660062	Plastic Panels	Cutting Plastic Panels Any Side ≤ 48"
660063		Cutting Plastic Panels Any Side > 48"
660060	Shear Wire Mesh	Shearing Expanded Metal or Wire Mesh Any Side ≤ 48"
660061		Shearing Expanded Metal or Wire Mesh Any Side > 48"

Ordering Example

Panel saw cut requirements should be described by specifying the type of panel required and the size required in inches. Pricing is calculated on a square foot basis. The cutting charges will appear as a separate line item.

ITEM#	QTY	MACHINING SERVICE #	LENGTH
655433	3	660062 4' x 3'	36 sq. feet

» Cut tolerances for panels/wire mesh
Plastic panels: +/-.125"
Wire Mesh: +.125"/-.250"

Notch Panel for Extrusion Clearance

ITEM #	SERIES	TYPE	A
660098	15	Corner Notch	.347"
660099	15 40		.500"
660212	10 15 40	Universal Clearance Notch	.347" / .500"

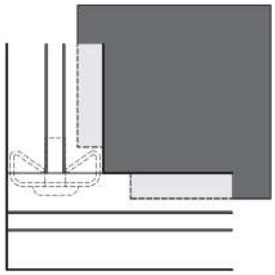

Panel notching gives clearance for perpendicularly mounted extrusions. This machining service is only needed when panels are installed in TSLOTS.

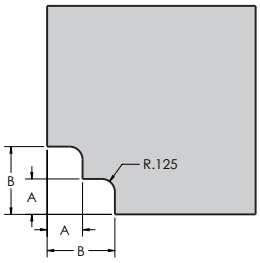

◦ Machining tolerance is +/- .030"

Machining Services

Notch Panel for End Fastener Clearance

ITEM #	MATERIAL	SERVICE TYPE	A	B
660096	15	Corner Notch	.250"	.650"
660097	15 40		.340"	.650"
660212	10 15 40	Universal Clearance Notch	.250" / .340"	.650"

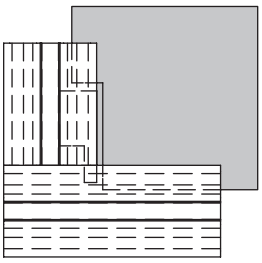

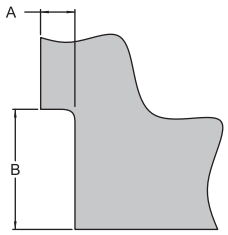

Panel notching gives clearance for end fastener. This machining service is only needed when panels are installed in TSLOTS.

- Machining tolerance is +/- .030"

Notch Panel for Anchor Fastener Clearance

ITEM #	MATERIAL	SERVICE TYPE	A	B
660088	15	Corner Notch	.375"	1.063"
660089	15 40		.500"	1.750"
660212	10 15 40	Universal Clearance Notch	.375" / .500"	1.063" / 1.750"

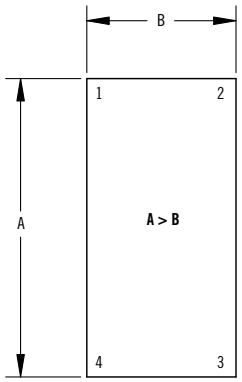

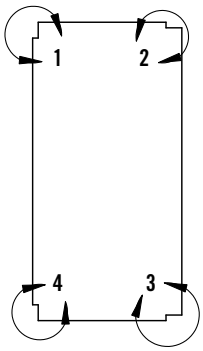

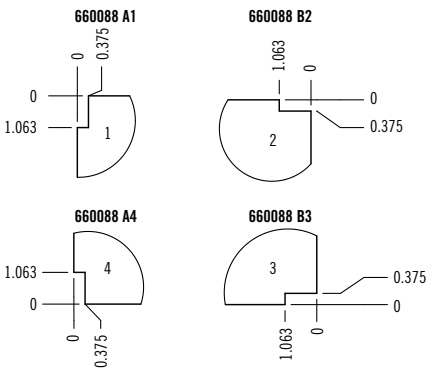

Panel notching gives clearance for anchor fastener. This machining service is only needed when panels are installed in TSLOTS.

Panel should be installed after the anchor fastener is tightened.

- Machining tolerance is +/- .030"

Note that side A is always longer than side B, and the letter listed in the service indicates which direction the longer notch is oriented.

Corner #1 is oriented by placing the panel as shown in the standard panel example. All other corners are based off this corner by numbering the panel clockwise.
